IEOM Society International, a 501(c)(3) non-profit organization, is a premier international platform and forum for academics, researchers, scientists and practitioners to exchange ideas and provide insights into the latest developments and advancements in the fields of Industrial Engineering and Operations Management. After having successfully 1st European Conference in Bristol, UK, the IEOM Society is organising the 2nd European Conference in Paris, France during July 26-27, 2018. The event will be held at the IESEG's Paris Campus, La Défense.

The 2nd IEOM European International Conference on Industrial Engineering and Operations Management aims at providing a platform for academics, researchers, scientists and practitioners to exchange ideas and to bridge the gap between the Industrial Engineering and Operations Management theory and its application in solving the most current problems and challenges faced by 21st century organisations. Hence, the conference is also expected to foster networking, collaboration and a joint effort among the conference participants to advance the theory and practice as well as to identify major trends in Industrial Engineering and Operations Management.

Topics covering industrial issues/applications and theoretical research, but are not limited to:

- Big Data and Analytics
- Decision Sciences
- E-Business and E-Commerce
- Energy and Resource Efficiency
- Engineering Economy, Education & Management
- Facilities Planning and Management
- Global Manufacturing
- High Value Manufacturing
- Human Factors and Ergonomics
- Information Technology and Information Systems
- Inventory Management
- Knowledge Management
- Lean and Six Sigma
- Logistics, Transport and Traffic Management
- Manufacturing Design and Servitisation
- Operations Management and Operations Research
- Product design and development
- Production Planning and Control
- Project Management
- Quality Engineering, Control and Management
- Reliability and Maintenance
- Reverse Logistics and Green Systems
- Service Systems and Service Management
- Sustainable Operations and Supply Chain Management
- Sustainability in Supply Chains and Operations
- Sustainability in Manufacturing, Services, Logistics, and Freight transportation
- Sustainable Manufacturing
- Systems Engineering
- Technology Management
- Tools for Sustainable Manufacturing and Service Systems Design, Management, and Performance Measurement
- Waste Management

Special Track: Systems Dynamics

Important Dates

Paper submission deadline: **15 February 2018**

Camera-ready paper submission deadline: **15 April 2018**

Conference: **26-27 July 2018**

Notification of acceptance: **15 March 2018**

Registration deadline: **1 May 2018**

Conference Chairs

Dr. Linda L. Zhang, Professor of Operations Management, IESEG School of Management, Paris La Défense, France

Dr. Ahad Ali, Associate Professor and Director of Industrial Engineering Programs, Lawrence Tech University, Michigan, USA
