- Zhuang, W.-Y., Junior, M. C., Cheong, P., & Tam, K.-W. (2011). *Flood monitoring of distribution substation in low-lying areas using wireless sensor network*. Paper presented at the System Science and Engineering (ICSSE), 2011 International Conference on.

Biographies

Uyioghosa B. Iyekepolo obtained his Bachelor of Engineering (B.Eng) degree in Electrical and Electronics Engineering from Ambrose Alli University in 2014. He completed his Master of Engineering (M.Eng) degree in Information and Communication Engineering at the Department of Electrical and Information Engineering, Covenant University, Ota, Nigeria. His research interests are in Internet of Things (IoT), Wireless Sensor Networks (WSN), embedded systems, and biomedical engineering.

Francis E. Idachaba is a Professor of Communication Engineering in the Department of Electrical and Information Engineering, Covenant University, Ota, Nigeria. He obtained his PhD in Electronics and Telecommunication Engineering from the University of Benin in Edo State Nigeria. With over 18 years in the academia, he has within the last five years served as a research fellow in 2013 at the Massachusetts Institute of Technology in the US and as a Research Advisor with Shell Petroleum Development Company in Nigeria between 2010 to 2012. He has over 100 publications in both journals and conferences. He is actively involved in Oil and Gas research with special interest in the development of oil and gas spill containment systems, digital oilfields, enhanced oil recovery among other interests. He is also actively involved in Communication Engineering research working on 5G communication, e-Health and Internet of Things.

Segun I. Popoola completed his Master of Engineering (MEng) degree in Information and Communication Engineering at the Department of Electrical and Information Engineering, Covenant University, Ota, Nigeria with a *Distinction* in June, 2018. He was the Overall Best Graduating Masters Student in Covenant University (2017/2018). Segun graduated from Ladoko Akintola University of Technology, Ogbomoso, Nigeria in 2014 with a BTech (*First Class*) degree in Electronic and Electrical Engineering. He was awarded the Best Graduating Student in the Department of Electronic and Electrical Engineering by the Faculty of Engineering and Technology in conjunction with the Nigerian Society of Engineers (NSE). He has authored and co-authored more than fifty (50) academic papers published in international peer-reviewed journals and conference proceedings. His research interests are, but not limited to: wireless communications, radio propagation modelling, Internet of Things (IoT), machine learning, and data analytics.
