Biographies

Jared Cirelli is an undergraduate student in the Industrial Engineering department at Penn State Erie, The Behrend College.

Andrea M. Konkol is the Associate Director of Admissions at Penn State Erie, The Behrend College. She earned her M.B.A. from Penn State Erie, The Behrend College in 2003.

Faisal Aqlan is currently an assistant professor of Industrial Engineering and Master of Manufacturing Management (MMM) at Penn State Behrend. He earned his Ph.D. in Industrial and Systems Engineering from the State University of New York at Binghamton in 2013. Aqlan has worked on industry projects with Innovation Associates Company and IBM Corporation. His work has resulted in both business value and intellectual property. He is a certified Lean Silver and Six Sigma Black Belt. He is a senior member of the Institute of Industrial and Systems Engineers (IISE) and currently serves as the president of IISE Logistics and Supply Chain Division, director of Young Professionals Group, and founding director of Modeling and Simulation Division. Aqlan is also a member of American Society for Quality (ASQ), Society of Manufacturing Engineers (SME), and Industrial Engineering and Operations Management (IEOM) Society. He has received numerous awards including the IBM Vice President award for innovation excellence, Penn State Behrend's School of Engineering Distinguished Award for Excellence in Research, and the Penn State Behrend's Council of Fellows Faculty Research Award. Aqlan is the Principal Investigator and Director of the NSF RET Site in Manufacturing Simulation and Automation at Penn State Behrend.

Joshua C. Nwokeji is an emerging professor, researcher and entrepreneur. He completed his Ph.D., in June 2016, and joined Gannon University, as Assistant Professor of Information Systems, in August 2016. He has authored more than 13 peer reviewed publications, and served as a reviewer in international conferences such as HICSS, ICEIS, and AMCIS. Currently he is a member of editorial board of ORBIT Journal. Dr. Nwokeji has taught many courses including systems analysis and design, database management systems, requirements engineering, and business process modeling.
