

management. Dr. Abdella has significantly contributed as a member of organizing committee or as a speaker in several workshops and forums on strategic topics related to transportation and road safety.

Khalifa N. Al-Khalifa is the Dean of College of Engineering and the founding director of Qatar Transportation and Traffic Safety Center (QTTSC) at Qatar University, Qatar. He is also a Professor in the Industrial Engineering and Mechanical Engineering Department, Qatar University. He was also the head of Quality Reliability and Maintainability Center, Qatar University. He obtained his Ph. D. in Manufacturing Engineering from the University of Birmingham, UK, and his Master and Bachelor degrees from Wayne State University, Michigan, USA, and University of Washington, Seattle, USA, respectively. His research mainly focuses on quality and reliability engineering. He is a member of IIE. He is also the Vice President of American Society for Quality, Qatar Branch. His paper in IIE in 2013 was the feature article of IIE magazine. Dr. Al-Khalifa is the chair of ASQ Doha-Qatar Local Member Community and a member of Qatari engineering society.

Wael Alhajjaseen is currently an Assistant Professor at the Qatar Transportation and Traffic Safety Center in the College of Engineering, Qatar University. He received the M.S. degree in transportation engineering from the University of Jordan in 2005 and the Doctor of Engineering degree in civil engineering from Nagoya University in 2010. He received several regional and international awards for his contribution in the field of Traffic Engineering such as Yasoshima Yoshinosuke Prize provided by the Eastern Asia Society for Transportation Studies in 2009. He is specialized in traffic engineering, traffic safety (human factors, crash data, and causality, driving simulation), road user behavior analysis (motorized & non-motorized), intelligent transportation systems.
