BIOGRAPHY

Whee Yen Wong (Winnie-wwy@hotmail.com) received her Ph.D. in mechanical engineering from the University of Nottingham (Malaysia campus). She is currently with the Universiti of Tunku Abdul Rahman and is now an assistant professor for the department of Internet Engineering and Computer Science under the Lee Kong Chian Faculty of Engineering Science at the Kuala Lumpur, Sungai Long campus. She earned her MBA in Information Management from The University of Hull, UK. She has authored a number of journal papers and conference articles in the area of quality improvement initiatives especially in the literature study of Six Sigma as a mean of software quality improvement initiatives. She also addresses the relationship between Six Sigma and business management innovation and has successfully introduced Six Sigma concepts and implementation to few Malaysia SMEs companies in the IT industry. Her major research interest include software project management, software quality improvement initiatives, project management maturity, project management excellence as well as primary and secondary factors affecting the IT project performance.

Yeoh Kar Peng is currently a fulltime lecturer of Tunku Abdul Rahman University College. She holds Master of Science degree in Management Information Systems from University Putra Malaysia. She has taught course in management information systems and object oriented analysis and design for information systems development.

Yap Seok Gee is currently a fulltime lecturer in the Faculty of Information and Communication Technology at the Universiti Tunku Abdul Rahman. She earned B.S.B.A. in Operating and System Management and M.S. in Information Systems from the Univerisity of South Alabama. She has experiences in designing and developing of commercial database and management information system.
