## Biography

**Jeyanthinathasarma Gowryathan** is a final year Production Engineering undergraduate at the Faculty of Engineering, University of Peradeniya, Sri Lanka. He has been involved in research areas like Industrial Engineering, simulation, lean, operations research and sustainable manufacturing. He is a student member of IEOM, IEEE, ASME and IESL. Also, he serves as the committee member of IEOM society at University of Peradeniya, Sri Lanka.

**Chanjief Chandrakumar** is a final year Production Engineering undergraduate at the Faculty of Engineering, University of Peradeniya, Sri Lanka. He has been involved in research areas like Industrial Engineering, simulation, lean, operations research and sustainable manufacturing. He is a student member of IEOM, IEEE, ASME and IESL. Also, he serves as the president of IEOM society at University of Peradeniya, Sri Lanka.

**Asela K. Kulatunga** is a senior lecturer in the Department of Production Engineering at the Faculty of Engineering, University of Peradeniya, Sri Lanka. He earned Bachelors in Production Engineering from University of Peradeniya, Sri Lanka and PhD in Mechanical/ Industrial Engineering from University of Technology, Sydney, Australia. He has published more than 50 books/book chapters, journal and conference papers. Dr. Kulatunga has carried out various research projects with local manufacturing and service sectors. He is currently serving as a co-drafter for organizational LCA, for UNEP/SETAC Life Cycle Initiative. His research interests include lean and sustainable manufacturing, Industrial Engineering. He is the country representative for IEOM in Sri Lanka. He also holds associate membership at IEEE, ERSCP, and IESL.

**Nadarasa Sanjeevan** is a final year mathematics undergraduate at the Faculty of Science, University of Peradeniya, Sri Lanka. He has been involved in research areas like statistical processes and Operations studies. He serves as the committee member of IEOM society at University of Peradeniya, Sri Lanka.
