#### BIOGRAPHY

**Chathurani Silva** is a PhD student at the School of Engineering and Advanced Technology in Massey University, New Zealand. She received a B.Sc. (Special) degree in Statistics from the University of Sri Jayewardenepura, Sri Lanka, in 2002. In 2007, she obtained an MBA in Management of Technology from the University of Moratuwa, Sri Lanka. Currently she is on her study leave from the Department of Decision Sciences in University of Sri Jayewardenepura, where she is a Senior Lecturer. She has taught Statistics, Operations Management, Technology Management, Supply Chain Management, and Total Quality Management at the Faculty of Management Studies and Commerce in University of Sri Jayewardenepura. She has taught Statistics at some other national universities and non-government educational institutions in Sri Lanka, where she was a visiting academic. Her current research interests are focused on Product Innovation Management, ICT, and mixed-methods research.

**Sanjay Mathrani** is a Senior Lecturer in the School of Engineering and Advanced Technology at Massey University, New Zealand. He holds degrees in Bachelor of Technology in Mechanical Engineering, Masters in Management Sciences, and a PhD in Information Technology from Massey University. He has a rich industry background with more than twenty years of product development, manufacturing, and global supply chain experience in hi-tech engineering operations. His research interests are in information and knowledge management, product development, and manufacturing operations. He has published several papers in international journals, books, and conferences and is a chartered professional engineer to New Zealand industry.

**Nihal Jayamaha**, has a PhD in Technology (Massey University, New Zealand), a Masters in Engineering (Massey University, New Zealand) and an MBA (University of Colombo, Sri Lanka). Dr Jayamaha specializes in statistical applications in technological (e.g. DOE, SPC) and social sciences (e.g. PCA/FA, SEM). Since February 2009 he is employed as a Lecturer in quality management at the School of Engineering and Advanced Technology, Massey University (Palmerston North Campus), New Zealand. Prior to his lectureship he worked in various capacities – operations engineer, project manager, technical auditor – in Sri Lanka and the UAE for over 18 years. He has published research in several international journals. Nihal's research interests include DOE, SPC, performance measurement, and healthcare operations management.
