BIOGRAPHY

Jose-luis Gonzalez-rubio is a consultant with the department of Retail Banking at a business consulting firm in Spain. He is currently studying M.Sc. in Business Consulting at Universidad de Comillas, Madrid, Spain. He holds a B.Sc. and M.Sc. degree in Industrial Engineering (level 7 in the European Qualifications Framework) from Universidad de Sevilla, Spain, and completed his training at École Polytechnique de Montréal, Canada.

Yasser Shaban is Assistant Professor in the Department of Mechanical design Engineering at Helwan University in Cairo, Egypt. He holds a Ph.D. in industrial engineering from Polytechnique Montréal in Canada. He holds a B.Sc., and M.Sc. degree from Helwan University, Cairo, Egypt, in Mechanical Engineering. His research field is diagnosis of machining conditions based on artificial intelligence. He is a member of the Institute of Industrial Engineers.

Soumaya Yacout is a Professor in the Department of Mathematics and Industrial Engineering at Polytechnique Montréal in Canada. She holds a D.Sc. in operations research from Georges Washington University in U.S.A.; and a B.Sc., and a M.Sc. in Industrial Engineering from Cairo University in Egypt. Her research interests include Condition Based Maintenance, and distributed decision making for product quality. She is a senior member of the American Society for Quality; and a member of the Institute of Industrial Engineering, and the Canadian Operational Research Society.
