BIOGRAPHY

Amalia Suzianti is a lecturer and senior researcher in the Department of Industrial Engineering, Faculty of Engineering, Universitas Indonesia. She holds a Ph.D in Innovation System Design from Technische Universitaet Berlin, Germany and University of Luxembourg (2010), Master of Science in Technology and Innovation Management from Brandenburgische Technische Universitaet Cottbus, Germany (2004), and a Bachelor of Engineering in Industrial Engineering from Universitas Indonesia (2000). Dr. Suzianti is currently active as the Head of Product Development and Innovation Laboratory and Vice Head of Industrial Engineering Department, Universitas Indonesia

Irham Satria Yudha has graduated as Bachelor of Engineering from the Department of Industrial Engineering, Faculty of Engineering, Universitas Indonesia.

Shabila Anjani is lecturer in the Department of Industrial Engineering, Faculty of Engineering, Universitas Indonesia. She is currently a researcher in the Product Development and Innovation Laboratory. She holds a Master of Business Arts degree from National Taiwan University of Science and Technology; and also Master of Engineering degree and Bachelor of Engineering degree from Universitas Indonesia.

Indi Galih Handana is a research associate in the Product Development and Innovation Laboratory, Department of Industrial Engineering, Universitas Indonesia. He is currently pursuing his bachelor degree in the Department of Industrial Engineering, Universitas Indonesia.
