

Dr. Vijay Kumar Manupati received the B-Tech degree in Department of mechanical engineering from Siddhardha Engineering College, and M-Tech in Department of Mechanical engineering with Industrial Engineering and Management as a specialization from National Institute of Technology Calicut. He received his PhD in Department of Industrial and Systems Engineering from Indian Institute of Technology Kharagpur. His current research interests belong include Intelligent manufacturing systems, agent/multi-agent/mobile-agent systems for distributed control, simulation, integration of process planning and scheduling in manufacturing. He has published papers in International Journal of Production Research, Computers and Industrial Engineering, and International Journal of Advanced Manufacturing

Technology.
