

cost at RM 28 400 (male younger workers) and RM 22 738 (male older workers). Majority of the claimant suffered MSDs at back location with average compensation cost of RM 28 117 (male younger workers) and RM 21 941 (male older workers). In addition, most of the victims had a sprains and strains injury with average compensation cost at RM 27 683 (male younger workers) and RM 23 875 (male older workers). This study will provide basis for future studies in MSD related cases among younger and older workers in Malaysia manufacturing environment.

BIOGRAPHY

Jafri Mohd Rohani is a Senior Quality and Statistical Engineering Lecturer. He is also Head of the Industrial Engineering Programme at the Department of Materials, Industrial and Manufacturing Engineering, Faculty of Mechanical Engineering, Universiti Teknologi Malaysia, Skudai, Johor. Currently, he is the President of Johor Cost and Quality Engineers Society. He is a member of the American Society for Quality (ASQ) and Human Factor Society of Malaysia.

He holds B. Sc (Industrial Engineering), B. Sc (Mathematical Statistics) from New Mexico State University, USA and holds a M. Sc. (Industrial and Systems Engineering) from the Ohio University, USA. He obtained his Ph.D in Statistical Process Control at the Universiti Teknologi Malaysia, Skudai, Johor.

Affandi Mohd Zainal is an Industrial Engineering lecturer at Department of Materials, Manufacturing and Industrial Engineering, Faculty of Mechanical Engineering, Universiti Teknologi Malaysia, Skudai, Johor. He is currently completing his PhD in Lean Sustainability

Mohammed Fitri Johari has graduated from M.Sc in Industrial Engineering program at UTM in 2015. He is currently working as Product Engineer in manufacturing industry.

Raemy Md Zein is an Ergonomic Manager at Ergonomic Excellence Center, National Occupational Safety and Health (NIOSH), Taman Teknologi Johor, Senai, Johor.

Ismail Abdul Rahman is an ergonomic researcher at Ergonomic Excellence Center, National Occupational Safety and Health (NIOSH), Taman Teknologi Johor, Senai, Johor

Rozlina Md Sirat is an Industrial Engineering lecturer at Department of Materials, Manufacturing and Industrial Engineering, Faculty of Mechanical Engineering, Universiti Teknologi Malaysia, Skudai, Johor. She is currently completing her PhD in safety culture and ergonomics.
