

National Technical University of Oil and Gas (Ukraine). He teaches courses is "Compressible Fluid Flow", "Turbomachinery", "Industrial Maintenance", "Reliability of Oil and Gas equipments" and "Gas Transport and Pipeline Reliability". His research interests include maintenance and reliability of oil and gas equipment and rotating machines, gas treatment and separators, Fluid Flow modeling, Simulation, Water treatment, Corrosion protection. Mr Bellaouar is a director of a Research and Manufacturing Company in Oil and Gas Services. He has published 16 scientific and methodical works, conference papers, as has published 1 patent work, and 1 monographs.

Volodimir Kopey is an Associate Professor in the Department of Computer-Aided Production Engineering at the Ivano-Frankivsk National Technical University of Oil and Gas (Ukraine) and PhD in Technical Science and Master of Science in Manufacturing Engineering. He teaches courses "Theoretical foundations of the manufacturing engineering", "Manufacturing engineering in the oil and gas industry", "The reliability and durability of the oil and gas equipment". His research interests include programming, computer modeling in engineering, maintenance and reliability of oil and gas equipment. He published 150 scientific and methodical works, including 5 textbooks, 2 monographs, 23 invention certificates.

Mokhtar Aouissi is an Associate Professor in the Department of Mechanical Engineering at the Amar Thlidji university Laghouat, Algeria, and (State doctorate in mechanical energy) PhD in Mechanical energy. He teaches courses "combustion and thermodynamically combustion", "boilers". His research interests include computer modeling in CFD, reactive and non-reactive flows and combustion. He published 7 scientific works.
