BIOGRAPHY

Muhammad Asyraf is a Facility Manager in Silterra and graduated in Bachelor of Chemical Engineering from Sydney University, New South Wales, Australia. He then obtained his MBA from Universiti Utara Malaysia. He has been managing Facility Chemical and Operation department for fifteen years at SilTerra Malaysia Sdn Bhd. Currently, he is pursuing his PhD in Mechanical Engineering Faculty with Universiti Teknikal Malaysia Melaka, Malaysia.

Ahmad Termizi Awang a Facility Staff Engineer in Silterra and has a Bachelor Chemical Engineering Degree from Iowa State, United States and Associate Degree in Applied Science from University of New York. He has more than fifteen years work experience in CMP and Facility.

Mohamed Ariff Shri Abdul Aziz is a CMP Section Manager in Silterra Malaysia Sdn. Bhd. with fifteen years of work experience in CMP process in wafer fabrication industry. He earned Bachelor of Engineering from Universiti Teknologi Malaysia. He is a key person in the CMP module and leads CMP process team.

Sulong Mamat is currently a Head of Facility Department in Silterra. He has a Bachelor of Engineering (Electrical & Electronics) with honors from Brighton Polytechnic, United Kingdom and a Diploma in Electrical Engineering from Universiti Teknologi Malaysia. He has twenty five years of work experience in multi-national companies.

Abdul Talib Din is an Associate Professor at Faculty of Mechanical Engineering in Universiti Teknikal Malaysia Melaka, Malaysia. He earned his Bachelor of Mechanical Engineering from Universiti Malaya and Masters of Science in Environmental Engineering from Universiti Teknologi Malaysia. He obtained his PhD in Mechanized Water Treatment from Universiti Kebangsaan Malaysia. He has twenty years of work experience in industry, eighteen years as Professional Engineer and he is a member of Institute of Engineers Malaysia. His researches focus on mechanized water treatment, pollution control, green technology, engineering ethics and occupational safety & health.
