

BIOGRAPHY

Elisa Kusri is a lecturer at the Department of Industrial Engineering, Faculty of Industrial Technology, Islamic University of Indonesia. She received a Doctoral degree from the Department of Mechanical and Industrial Engineering, Faculty of Engineering, Gadjah Mada University, Indonesia. She teaches undergraduate course and trains some companies in Indonesia in Production Planning & Inventory Control and Supply Chain Management. She earned a certificate in production Inventory management from APICS in 2011. In addition, She has published research papers at national and international journals as well as conference proceedings.

Subagyo is an Associate Professor at the Department of Mechanical and Industrial Engineering, Faculty of Engineering, GadjahMada University, Indonesia. He received his PhD from the University of Wollongong, NSW, Australia in 1997. His research interests are in the area of product engineering and management, applied multivariate statistics, and high temperature materials processing. He has published over 100 research papers at national and international journals as well as conference proceedings.

Nur Aini Masruroh is an Assistant Professor at the Department of Mechanical and Industrial Engineering, Faculty of Engineering, Gadjah Mada University, Indonesia. She received her PhD in Industrial and Systems Engineering at National University of Singapore. Her research interest are in operations research, production planning and scheduling, and decision analysis. She teaches undergraduate and master degree in operational research and decision analysis. In addition, She has published research papers at national and international journals as well as conference proceedings.
