

BIOGRAPHY

Pravin P. Tambe is an Assistant Professor in Department of Industrial Engineering at RCOEM, Nagpur India. He earned his Master's degree in Industrial Engineering from VNIT Nagpur, India and PhD from Indian Institute of Technology (IIT) Delhi, India. He has published research papers in reputed international and national journal and conferences. He is actively involved in the activities of Indian Institution of Industrial Engineering (IIIE). He is the member of IIIE, IAENG and IEOM. He is reviewer for international journals of Elsevier, Emerald, and Springer. His research interest mainly focuses on maintenance planning, quality control, production scheduling, reliability and productions & operations management.

Makarand S. Kulkarni is currently an Associate Professor with the Department of Mechanical Engineering at the Indian Institute of Technology Delhi. He is associated with the Industrial Engineering group of the Department. He graduated in Production Engineering and later did his Masters in Materials Technology from the Department of Metallurgical Engineering and Materials Science at the Indian Institute of Technology Bombay. Subsequently, he completed his Ph.D. in the area of Manufacturing Engineering from the Department of Mechanical Engineering at the Indian Institute of Technology Bombay. His post Ph.D. industry experience includes application of quality and reliability engineering techniques in manufacturing and service industry. His current research interest mainly focuses on Quality, Reliability, Life Cycle Costing and Analysis, Maintenance Management, Product Service Systems, Lean Manufacturing, Warranty Management and Operations Planning & Control.
