

## **Biographies**

**Mr Prasenjit Dutta** is an Assistant Professor in Department of Production Engineering at National Institute of Technology Agartala, India. He obtained both Bachelor of Engineering and Master of Engineering in Production Engineering from Jadavpur University. He has 8 years of industrial experience and 14 years of teaching experience. His area of interest includes Advance Machining Processes and Optimization techniques. Presently he is pursuing PhD from Mechanical Engineering Department of Jadavpur University. He is also a member of Institute of Engineers, India.

**Professor Subhash Chandra Panja** is presently working as Professor in the Department of Mechanical Engineering, Jadavpur University, Kolkata, India. He completed his Bachelor in Mechanical Engineering from Jadavpur University, Kolkata in 1997. He did Master of Technology and PhD from Industrial Engineering and Management, Indian Institute of Technology Kharagpur in 1999 and 2008, respectively. He has had almost 15 years of teaching experience at several engineering colleges and institutions in India. He has published a number of papers in International and National journals and Conferences in the area of reliability engineering, maintenance management, railway systems, and industrial engineering. His principal areas include reliability and quality engineering, process control, railway systems analysis, and modeling fuzzy systems.

**Mr Pawan Kumar** received Bachelor of Technology in Mechanical Engineering in May 2014. He entered Post Graduation program in Computer Integrated Manufacturing under Production Engineering Department at National Institute of Technology (NIT), Agartala in July 2017. He is currently working on Non convectional Machining processes and Operation Research. He is also an associate member of Institute of Engineers India.

**Professor Debashis Sarkar** is presently working as Principal in the Asansol College of Engineering, Asansol, India. He completed his Bachelor of Engineering, Master of Engineering, and PhD from Department of Mechanical Engineering, Jadavpur University. He published several research articles in journals and international conferences. His areas of interests are manufacturing technology, industrial engineering, and maintenance. He is the fellow of Institute of Engineers (India).
