Biographies

Mercy Manyuchi is a Researcher at the University of Johannesburg in South Africa. She holds a Doctorate Degree from Cape Peninsula University of South Africa, a Master of Science Degree from Stellenbosch University and a Bachelor of Engineering Honors Degree from Zimbabwe. Her research interests are in waste to energy technology, value addition of waste biomass and renewable energy technologies.

Charles Mbohwa is a Professor of Sustainable Engineering and Energy Systems at the University of Johannesburg.

Edison Muzenda is a Professor in Professor in Chemical and Petrochemical Engineering at the Botswana University of Science and Technology. He is also a visiting professor at the University of Johannesburg.
