Biographies

Neeraj Sharma received B.Tech. and M.Tech. and PhD in 2006, 2012 and 2017 respectively. Dr. Sharma is a post-doctoral research fellow at University of Johannesburg (South Africa) in the department of Mechanical and Industrial Engineering Technology. His area of interest is non-conventional Machining methods and bio-compatible materials.

Kapil Gupta is working as Associate Professor in the Dept. of Mechanical and Industrial Engineering Technology at the University of Johannesburg. He obtained Ph.D. in mechanical engineering with specialization in Advanced Manufacturing from Indian Institute of Technology Indore, India in 2014. Advanced machining processes, sustainable manufacturing, green machining, precision engineering and gear technology are the areas of his interest. Several SCI Journal and International Conference articles have been credited into his account. He has also published some books on hybrid machining, advanced gear manufacturing, micro and precision manufacturing etc. with renowned international publishers.
