## Biographies

**Adam Khan M** is working as a Post-Doctoral Research Fellow in the Department of Mechanical and Industrial Engineering Technology, University of Johannesburg, South Africa. He received his Doctoral Degree from National Institute of Technology, Tiruchirappalli, India for his research in Surface Engineering studies on high temperature materials. His Bachelor and Master Degrees are from Anna University, Chennai in the specialization of Production and Design. Materials processing, surface engineering, advanced machining, and metallurgy are the areas of his interest and specialization. He has published over twenty five articles in the international journals of repute.

**Kapil Gupta** is working as Associate Professor in the Dept. of Mechanical and Industrial Engineering Technology at the University of Johannesburg. He obtained Ph.D. in mechanical engineering with specialization in Advanced Manufacturing from Indian Institute of Technology Indore, India in 2014. Advanced machining processes, sustainable manufacturing, green machining, precision engineering and gear technology are the areas of his interest. He has authored several SCI/ISI Journal and International Conference articles. He also authored and edited 10 international books on hybrid machining, advanced gear manufacturing, micro and precision manufacturing, and sustainable manufacturing with the renowned international publishers. He has also successfully guest edited special issues of a Scopus indexed journals and he is currently editing a series of handbooks on Advanced Manufacturing as a series editor. He is a recognized reviewer of many international journals and in the advisor/technical committees of international conferences. He has also delivered invited speeches in international conferences and symposiums, and seminar talks at international universities. Kapil Gupta is a NRF [National Research Foundation] rated Researcher in South Africa. Currently, he is supervising 8 Masters and 4 Doctorate students who are busy conducting research in advanced manufacturing and industrial engineering fields.
