Stützle, T., and Hoos, H. H., MAX–MIN ant system, *Future generation computer systems*, vol. 16, no. 8, pp. 889-914, University of Wales, Cardiff, U.K., 2000.

Yagmahan, B., and Yenisey, M. M., Ant colony optimization for multi-objective flow shop scheduling problem, *Computers and Industrial Engineering*, vol. 54, no. 3, pp. 411-420, 2008.

Biographies

Azza Gaber is a Teaching Assistant in Industrial Engineering Department, Faculty of Engineering, Zagazig University, Zagazig, Sharkia, Egypt. She earned B.S. in Industrial Engineering from Zagazig University in 2010. She is a master student working in developing an Ant Colony Optimization Heuristic for solving the 2D Level Packing Problems.

Raafat Elshaer is an Associate professor in Industrial Engineering Department, Faculty of Engineering, Zagazig University; Zagazig, Sharkia, Egypt. He received his B.S. degree in Production Engineering from Faculty of Engineering, Helwan University in 1996, M.Sc. degree in Industrial Engineering from Faculty of Engineering, Zagazig University in 2004, and Ph.D. in Industrial Engineering from Faculty of Engineering, Zagazig University in 2009 as a joint program between Zagazig University and Rutgers University, USA. He has published journal and conference papers. His research interests include optimization, scheduling, project management, earned value management and others.

Mahassen Khater is a Professor emeritus in Industrial Engineering Department, Faculty of Engineering, Zagazig University; Zagazig, Sharkia, Egypt. She received her B.S. degree in Electrical Power and Machines Engineering from Faculty of Engineering, Cairo University in 1973, M.Sc. degree in Electrical Power and Machines Engineering from Faculty of Engineering, Cairo University in 1978, and Ph.D. in System Engineering from Faculty of Engineering, Zagazig University in 1985. She has published journal and conference papers. Her research interests include optimization, scheduling, logistics, project management, and others.
