Biography

Aseel H. Bashnaini is an undergraduate student in the Department of Operations and Information Management at Effat University, Jeddah, Saudi Arabia. Her interests include operation, supply chain management and forecasting. Aseel will obtain her bachelor degree in fall 2017.

Marwan M. Lingga is an assistant professor in the Department of Operations and Information Management at Effat University, Jeddah, Saudi Arabia. Dr. Lingga earned his PhD in Engineering and Technology Management from Portland State University, Oregon, USA. His research interest is in Operations Research, Technology evaluation, Data-drive decision making, and Technology forecasting. Dr. Lingga is a member of Technology Evaluation Research and Applications Group (TERA/2015), Omega Rho (April/2013), and Project Management Institute PMI (2003).

Abdulaziz T. Almaktoom is an assistant professor in the Department of Operations and Information Management at Effat University, Jeddah, Saudi Arabia. He earned his PhD in Industrial Engineering from Wichita State University. Dr Almaktoom is a certified supply chain analyst. He has published journal and conference papers and his research interests include supply chain management and logistics, optimization under uncertainty, reliability based robust design optimization, resilience based design optimization, and lean supply chain management. He is a member of IIE, IEOM, INFORMS, CSCMP, ASQ, ISCEA and SME.
