Abstract

This research purpose was to present a thorough knowledge map of the intellectual structure of Sustainable Development Goals in Association of Southeast Asian Nations (ASEAN) countries based on the dataset collected from the Scopus database. A scientometric approach was employed by analyzing 438 scientific articles published between 2015 and 2019, using the VOSViewer application, and analyzing the search results function on Scopus. The study discusses an overview and the prominence of articles, authors, organization, country, publication sources, collaborative researcher, and research themes. There were four category maps of collaborative researchers. Based on the identification of a collection of knowledge generated from four-year publications, this research proposes a grouping of Sustainable Development Goals research themes: Sustainable development, ASEAN, Government, and Education, as the SAGE publication themes.

Keywords

ASEAN, publication mapping, research themes, scientometric, Sustainable Development Goals

Acknowledgments

The writers are grateful to Universitas Airlangga for providing access to the Scopus database on scholarly publications and Bina Nusantara University for supporting the article processing charge.

Biographies

Agung Purnomo is a researcher and faculty member of the Entrepreneurship Department, BINUS Business School Undergraduate Program at the Bina Nusantara University, Malang Campus, Malang, Indonesia. He earned a Bachelor of Agriculture in Horticulture from Brawijaya University, Indonesia; and a Master of Business Administration in Creative and Cultural Entrepreneurship from Institut Teknologi Bandung, Indonesia. Mr. Agung is currently pursuing a Ph.D. in Management Science at Universitas Airlangga, Indonesia. He has published several journals and conference papers using bibliometric methods in collaboration with multidisciplinary researchers.

Andre Septianto is a junior researcher of the Chemical Engineering Department at the Universitas Nahdlatul Ulama Sidoarjo, Sidoarjo, Indonesia. Mr. Andre is a member of the Indonesian bibliometric research group managed by Agung Purnomo.

Elsa Rosyidah is head of the Institute for Research and Community Services and a faculty member of the Environmental Engineering Department at the Universitas Nahdlatul Ulama Sidoarjo, Sidoarjo, Indonesia. She earned an Associate of Agricultural Technology from IPB University, Indonesia; a Bachelor of Agricultural Technology in Agricultural Engineering from Brawijaya University, Indonesia; and a Master of Environmental Science from Universitas Padjadjaran, Indonesia. Mrs. Elsa is currently pursuing a Ph.D. in Environmental Engineering at Institut Teknologi Sepuluh Nopember, Indonesia. She is part of the 10,000 Women Entrepreneurship Partnership Global Cohort of The U.S. State Department, Goldman Sachs, & Thunderbird, School of Global Management. She has published several journals, books, and conference papers.

Muhammad Muharrom Al Haromainy is researcher and lecturer of the Information Department at the Universitas Nahdlatul Ulama Sidoarjo, Sidoarjo, Indonesia. He earned a Bachelor of Computer Science from Universitas Islam Negeri Maulana Malik Ibrahim Malang, Indonesia; and a Master of Computer from Institut Teknologi Sepuluh Nopember Surabaya, Indonesia.
