

## Table of Contents

ID	Title	Page
3	Prospective analysis of water supply through analytical methods for a high Andean population	1
4	Crowdsourced Local Delivery in Developing and Developed Countries: A Comparison of Stakeholder Expectations	13
5	Production Model Based on Lean Manufacturing, MRP, MPS and TPM to Reduce Losses in a MSE in the Bakery Sector	25
6	Characterization of energy efficiency in lighting systems using solar panels by light self-regulation applied to higher education centers	35
21	Enhancing Academic Performance in Operations Research through Cooperative PBL in a Distance Learning Environment	48
24	Improvement of Clean-in-Place (CIP) in the Evaporation Process of a Dairy Company Using Six Sigma	63
25	Analysis of the Performance of a Private Entity as Agent of Governance in a Local Productive Arrangement of Information Technology	75
26	Increasing the Potential of Bolivian Manufacturing Systems Through Factory Physics and The Theory of Constraints: A Case Study	77
27	Understanding Electric Vehicle Adoption in Bolivia: An Examination of Consumer Attitudes and Influential Factors	89
28	Influencing Variables and Scenarios for the Frozen Fruit Agro-export Sector: The Peruvian Case	98
30	Systematic Review of the Literature on Data Governance in healthcare institutions	110
33	Optimal Decisions for a Group Buying Problem with Two Retailers and Two Capacitated Suppliers	122
36	The Airborne Fulfillment Center: Understanding the Feasibility and Limitations of the Flying Vessel	128
37	Production Management Model Based on Lean Manufacturing and SLP to Optimize Unproductive Times in SMES in the Plastics Industry	139
38	A Case Study Review of Supply Chain Modifications to Minimize Community Impact from Hurricanes	148
39	Impact of Specialized Valid Inequalities for the Driver Rostering Problem for Mass Transit Systems	156

40	The Association Through the Generation of Consortiums, Methodology Applicable to Mypimes of Imbabura- Ecuador	158
44	A Home Health Care multi-objective approach for personnel scheduling and routing problem	159
45	Industry 4.0 Maturity Models in SMEs, Mexico Context	160
46	Students' Perceptions of Information Security in Online Platforms	170
48	Replacing Complex Models for Health Decision Making with Metamodels: Three Examples	171
49	Patient Monitoring over the Internet	172
50	Fintech in the Entrepreneurial Ecosystem: Analysis of the Relationship of Variables in SMEs in the State of Mexico	173
51	Multi-criteria Index clustering method with Mean-Variance Optimization in PSE amidst Covid-19 Pandemic	185
59	FLP Optimization Problem using Multi-point Swapped Crossover	197
60	Optimization using Genetic Algorithm in a Low Voltage Distribution Network	207
77	Application of The Abc Methodology to Reduce the Delay of Sales Orders in A Company Warehouse in Barranca City	215
78	The Role of Stakeholders and Their Participation in Additive Manufacturing Technology Roadmapping: A Case of a Defense Industry	227
79	X-hance an interface that enhances x-ray images	236
80	Designing the Prototype Aquatic Rescue Robot Based on the Biomimicry of the Istiophorus (sailfish)	237
81	Building Vulnerability Reduction Through Lean Construction and BIM Methodologies to Boost Productivity and Effectiveness in the High Andean Area	238
84	Characterization of Soils and Their Resistance Through the Unconsolidated Direct Shear Test in a Coastal City	250
86	Exploring the Effects of Footwear against Fall Incidents Amongst Older Adults: A Review for Design Enhancement	252
87	A New Probability Distribution with Applications to Pandemic Data	263
88	Lean Management Practices Applied in Retail Sector Businesses: a Systematic Review of Literature	271
89	Asynchronous Team for Flow Shop Scheduling Problem: A Case Study	283
90	Legal Research on Decision-Making in Artificial Intelligence and Corporate Management	293

91	Factors Affecting Intention to Accept Artificial Intelligence-based Smart Aquaculture System	304
93	Reverse Logistics of Electric Vehicle Battery in Indonesia: A Causal Loop Analysis	314
98	Inventory Policy for the Demand of Main Products: The Case of a Peruvian Grocery Store	321
100	Rainwater Harvesting Acceptance Model in DKI Jakarta	330
102	Systematic Literature Review on the Short Pasta Noodles Reinforced with Seaweed	342
104	Interaction University-Community as Generator of Social Innovations	352
105	Models and Optimization Process of Acid Effects on the Silica and Alumina Contents of Geopolymer Concrete	353
106	Design and implementation of an automatic control system applying PID in the positioning of an electric wheelchair	365
107	Application of The Smed Methodology in The Injection Machine in The Company Avanplast S.a.c. To Reduce Setup Time	376
108	Business Agile Model for Startups in the Meat Industry using Digital Marketing, Lean Canvas and Lean Startup	377
109	Chemometrics Didactic Experiment for the planning of experiments: Efficiency of Natura perfume brand	389
110	Agile Course Planning in Educational Programs	401
127	Evaluation of the Effects of a Center of Excellence Support Program on National Technology-Based Strategic Goals of a Country: A Case Study	403
129	Optimization of Multimodal Dial-A-Ride Systems with Fixed-Line Flexible Time Schedules	415
130	Synthesis of Criteria for Knowledge Management Strategy in an Aircraft Maintenance Company to Increase the Employee Capability	427
132	Assessing and Furthering Technology Transfer in the Gulf Cooperation Council Countries	439
133	The Role of Industry 4.0 in Supply Chain Management	446
134	IoT Smart Entry System of RFID Attendance with Face Mask Detection and Body Temperature Monitoring for Starlord Delivery Services	447
136	Manpower Planning and Allocation in Warehousing Area: A Multi-Objective Optimization Approach using Goal Programming and Particle Swarm Optimization Methods	458
143	Using Predictive Analytics for Mini-Grocery Store Characterization in Barranquilla (Colombia)	475

144	Digital Capability Maturity Improvement Strategy Design: A Case Study of a Mobile Phone Manufacturing Company	482
145	NETBLK: Network Adblocker using Raspberry Pi	490
146	Proven Approaches to Procurement Risk Management: A Framework Review and Case Study of ISO 31000	500
147	CYPHER: Implementation of an IoT-based Smart Security Camera System with Image Detection and Email alert using Raspberry Pi	511
148	iCare43s: A Trees Information and Management System for Trees Coalition in Angeles City	520
149	Determination of Independent Surveyor for Coal Trader using Analytical Hierarchy Process and TOPSIS methods in Indonesia	527
150	A Proposed Wireless Campus Network Planning and Design of Salapungan Elementary School	528
151	Recapp: A Web-Based Client's Healthcare Record and Appointment Management System for Bale Angeleño	539
152	Esee: A Web-Based Performance-Driven Employee Management System for The Midnight Suns Company	549
153	Sustainability Strategy in The Fiber Cement Industry in Indonesia Using Soft System Methodology	560
154	FMECA-Based Model for the Development of a Fault Diagnosis Interface – Case Study in Small Electric Vehicles	566
155	Implementation of Lean Manufacturing to Reduce Production Cycle Times and CO2 Emission in Gate to Gate Life Cycle Assessment in the Biodegradable Plastic Industry	568
156	Policy Analysis of Water Management in Integrated Industrial City Bekasi Area Using System Dynamics	580
157	Designing a on Demand Job Application for Online Employment Company	581
158	A Bibliometric Analysis on Inventory Management: On a Time Horizon 2000-2022	592
168	Corporate Social Responsibility and the Application of NOM-035 in a Consulting Services Company	603
169	Use of Artificial Intelligence in Education: A Systematic Review	614
171	Machine Learning algorithms applied in a Service Platform for Professional Services. Case Study	625
172	The application of lean tools in the food industry: a systematic review of the literature	637
173	Lean Six Sigma Approaches Trend: A Bibliometric Review	648

175	Aplicación de la metodología DMAIC para mejorar la productividad de una planta embotelladora de agua mineral en Junín, Perú	658
176	ECOPACAYA 4.0: An Innovation Augmented Reality Based Application for Ecotourism and Scientific Tourism in the Pacaya Samiria Amazon Lodge Private Reserve in the Amazon Jungle of Loreto, Peru	671
177	Lean Manufacturing for Process Improvement: A Bibliometric Review	683
182	Factors Affecting the Level of Trust of MSMEs in Using Fintech Using the Technology Acceptance Model (TAM)	685
183	Sustainable Layout in Automotive Original Equipment Manufacturer: Design Analysis and Improvement	696
196	Referential Strategic Socioeconomic Business Model, to Increase Competitiveness by Sustainable Development of Amazon Forest	697
197	Barriers on Electric Car Adoption Based on People's Perspective in DKI Jakarta	709
198	Gamification in Occupational Safety Training: A Systematic Literature Review	716
199	Prioritizing Fire Risk Criteria in Ready-Made Garments Factories of Bangladesh by Applying CRITIC Method	729
202	Green Hydrogen as Energy Alternative to Reduce Carbon Emissions in Transport Urban of the City of Lima	741
203	Characterization of the ecological impact of the oil spill associated with the intervention of the state in the protection of marine biodiversity	753
204	Identification of Ergonomic Risk Factors and Safety Concerns in Metal Fabrication Industries	754
205	Evaluation of Indicators for Developing Supply Chain Resilient in the Healthcare Industry of Indonesia	755
206	Sustainability of Construction Company Waste Management in the Industrial Era 5.0 - Post Pandemic Covid-19	767
207	Product Design of Adjustable Mini Static Bicycle Using Nigel Cross Method	777
208	Diseño de Propuesta de la Cadena de Operaciones de ADEICS Utilizando Lean Six Sigma	787
210	The Investigation of 4.5G Service Quality Using the SERVQUAL Method in the Gaziantep	799
286	Six Sigma Application to Chip Shortage Crisis in Automotive Industry	808
298	Reliability Analysis of Pitot Static System Failure in North America	809

305	A Cross-Sectional Study on Anger Expression among Students in University of Cyberjaya, Malaysia	810
