6th Asia-Pacific Conference on Industrial Engineering and Operations Management

Bali, Indonesia, August 05-07-20, 2025

ID	Title	Page
1	Financial and Reliability Evaluation on Multi-State Weighted k-out-of-n: F System	1
3	Assessing Waste and Implementing Lean Solutions in Kuwaiti Banks: A Case Study	9
5	Improvement of Output and Waste Reduction Through Equipment Reverse Deterioration in an FMCG Industry: A TPM 4-Phases to Zero Breakdowns Approach	10
6	Lean-Enabled Digital Transformation: Industry 4.0 Technologies as Catalysts via Lean Practices	22
11	Evaluation of Maintenance and Repair Contracts Used in the Mining Industry by Service Providers	38
12	3E Analysis of a Solar-Powered Near-Zero Energy Community: A Case Study in Najran, Saudi Arabia	52
14	Factor Identification and Mitigation Strategy for the Delay in Project Execution in the Oil and Gas Sector: Using ISM-MICMAC Technique	53
18	A Cost-Effective Digital Inventory System for Small Enterprises: Leveraging AppSheet with Lean Principles	61
19	Information Disclosure: A Panacea to Effective Building Development	72
20	Logistics Proposal for the Competitiveness and Development of the Supply Chain Bakery and Pastry Sector	84
23	A Hybrid Optimization Approach to Multilingual Contact Center Scheduling under Resource Constraints	96
26	Closed Loop Supply Chain Model with Remanufacturing, Recycling and Refurbishment Processes: A Systematic Review	106
27	Supply Chain Optimization for Hydrotreated Vegetable Oil (HVO) Products	118
41	Banjar to Banjar: Designing a Public Transport Network in Denpasar Using Community Centers as Bus Stops	130
48	Designing Product Placement Strategy for Outbound Loading Process in C4 Container Trucks at PT XYZ	140
49	Identification of Indian Handloom Industry Customer's Requirements by Using an Integrated AHP and QFD Approach	155

52	A Delphi Analysis on the Barriers of Battery Swapping in Indian Electric Vehicle Battery Infrastructure	157
54	Safety-Aware Traffic Assignment in Mixed AV-HV Networks: A Multi-Player Perspective	169
55	A Literature Review and Classification of Two-Echelon Sustainable Inventory Models in Supply Chains with Green Technology Investment	171
56	Information Firewall and Component Procurement	183
57	Barriers of Battery Leasing in Indian Electric Vehicle Infrastructure: Insights from a Delphi Study	184
60	A 5S Implementation Case Study for Organizing a Storage Space	197
61	Implementing Lean Engineering in a Computer Lab: A Case Study at a University	207
62	Combined Lean-Six Sigma for Process Improvement at Different Facilities: A Review	229
63	Environmental-friendly Pathfinding on Three-dimensional Terrain Surface Models	237
64	Short-Term Electricity Load Forecasting Using a Modular Hybrid Framework	248
66	Designing of the K-LEXO (Korea Lower-limb Exoskeleton) for Elderly Agricultural Workers	249
67	Understanding The Dynamics of Marine Fish Supply Chain Using a Causal Loop Diagram: A Case Study in Lamongan, Indonesia	251
68	Predictive Model for Electric Vehicle Reconfiguration in Malaysia	261
69	A Risk-Weighted Multi-Criteria Decision Model for Prioritizing Food Loss and Waste Management Strategies in Developing Countries	273
71	Improving Textile Productivity through Lean Manufacturing: A Case Study in A Peruvian SME Company	288
72	The Influence of Artificial Intelligence on Building Information Modeling when Managing Engineering Projects	301
73	An Analysis of the Causes of Public-private Partnership Project Failure in South Africa	309
74	Productivity Improvement in Portland Cement Production Using Lean Manufacturing and Six Sigma	323
75	Visualizing Retail SKU Configurations through Entropy and Market Matrix	334
76	Visualizing Resilience to Egg Supply Risk Based on Consumer Purchasing Data	346
78	Managing the Environmental Effect of AI Models	358

82	Technopreneurship and Innovation System as Strategic Drivers for Commercializing Powerwall Technology	360
83	Dynamic Adjustment of Price Caps Based on Demand Fluctuations in Multi-Stakeholder Markets	373
84	The South Africa's Protection of Personal Information Act of 2013 Research Trends	374
85	Optimizing Energy Storage Systems Supply Chains: A Bibliometric Analysis (2014-2024)	387
87	Application of the 5S and TPM Methodology in the Forming Process for the Manufacture of Gas Cylinders	401
88	E-Waste Disposal Behavior and Management Model: Integrating Local Government and Industry Roles in the Philippines	413
89	Blockchain Technology Implementation for Transparency, Traceability, and Supply Chain Sustainability: A Critical Viewpoint	429
90	Mapping the South African Cybersecurity Research Landscape (2021 to 2025) Using Scopus and VOSviewer	437
111	Relationship Between Safety Culture and Safety Performance in SME Malaysia	449
115	System of Predictive Maintenance in Palm Oil Mill	461
116	Advancing SDG 7 Through the Synergistic Integration of Circular Economy and Industry 4.0: A Bibliometric Analysis with Fuzzy-set Qualitative Comparative Analysis	475
117	Development of Computer Simulation Model for Capacity and Resource Planning: A Case Study of Intraocular Lens Manufacturing System	489
118	Study of Quality Control in Capillary Side Contour Tolerance of Intravenous Catheters	500
119	Systematic Model Design for Determining Interoperability Requirements Based on Technology in EMSB	512
120	Comparing Customer-Oriented and Revenue-Oriented Overbooking Strategies in Dynamic Pricing Environments	525
123	A Systematic Literature Review of Risk Assessment Methodologies for Electric Bus Infrastructure	537
124	Performance Evaluation of Demand Forecasting Models for Textile industry in Bangladesh: Seasonality, Time Series, and Machine Learning Approaches	549
127	A Computational Approach to Chinese Calligraphy: Data-Driven Feedback Through Pixel-Based Stroke Segment Analysis	562
132	Enhancing Production Efficiency Through Lean Manufacturing: A Case Study at Yellow Noodle SMIs in Padang, Indonesia	574

133	An Analysis of Transformer Health Index for Optimizing Asset Management Strategies Based on Operational and Environmental Data	585
134	Productivity Systems Used for Improving the Operational Process of Making Building Blocks for Productivity Growth within the Small-Scale Masonry Block Manufacturing	598
135	The Application of Productivity Improvement Systems for Enhancing the Productivity of the Small-Scale Masonry Brick Manufacturing Enterprises	609
146	The Impact of the Fourth Industrial Revolution on Operations Management: Evidence from a Namibian Telecommunications Company	618
147	An Analysis of Sales and Cash Receipt Procedures to Support Internal Control: A Case Study at Auto2000 Yasmin Bogor	633
148	Business Development Strategic of H.B Tempe in Indonesia	645
149	Development of a Beehive Prototype to Produce Honey Through Digital Manufacturing Technologies	657
150	Organic Waste Management with the Pentahelix Model in Bogor City	666
154	Analysis of the Related Financial Reporting of Electric Utility Companies on Energy Transition Readiness: PLN BUMN and non-PLN	675
155	Vision Transformers for Helmet Compliance Monitoring: A DETR-Driven Framework for Occupational Safety	688
157	SWOT Analysis of QRIS (Quick Response Code Indonesian Standard) Adoption for MSME Sales Enhancement: A Strategic Framework for Digital Payment Integration	699
158	The Impact of Cyberattacks Faced by South African SMEs: 2024 to 2025 Review	710
159	Parametric Analysis & Iterative Engineering Blueprints for Low-Cost Sago Bark Processing Machine	722
163	The Impact of Content Moderator Accounts on BPO Workers: Exploring How Social Media Content Exposure Contributes to Stress and Mental Health Challenges	730
164	Balancing Academic Responsibilities, Work, and Leadership: Assessing the Mental Workload and Emotional Capacity of Working Students and Student Leaders	744
175	Business Development Formulation Using Business Model Canvas On B-Magg Environmentally Friendly Fish Pellets	755
176	Digitizing Manufacturing Workflows: Lessons from Deploying a Low-Code Reporting Tool in an SME Assembly Line	765
178	Strategic Hospital Cluster-based Delivery Planning for Centralized Healthcare Additive Manufacturing Systems	774

179	The Impact of Patient Education on Knowledge of Gastritis and Its Management in Public Health Centers	786
180	Weather Forecasting Using Markov Chains in Bogor City: Software Implementation for Predicting Weather Patterns	797
181	Feeding Behavior of Rainbow Lorikeet (<i>Trichoglossus haematodus haematodus</i>) in The Hookbill Aviary of Animalium National Research and Innovation Agency (BRIN) Cibinong	807
182	KITOSAINS: Utilization of Shrimp Shell Waste as Bioadditive Through Chitosans Hydrolysis Technology to Achieve SDGs 2029	808
183	Recovery of Fuel Oil from Hazardous Sludge Maritime Oil via Pyrolysis: Characterization and Compliance with National Fuel Standards	815
185	Digital Marketing Adoption Level in MSMEs of Halal Certified Food Products in Yogyakarta	827
186	Disability, Stigma, and Public Trust: Understanding Community Perspectives on Inclusive Education in Indonesia	841
187	Adaptive Differential Control Strategy for an AGV with LiDAR-based Obstacle Sensing	843
188	Pharmamed Chatbot and Audiovisual Media: A Dual Strategy for TB Screening and Education in South Bogor	850
189	Intelligent Decision Support System for Quail Egg Production Using Long Short-Term Memory	862
190	Comparative Study of VAR-IMMA and MICE PMM in Handling Missing Data	875
191	Fiber-Reinforced Composite Additive Manufacturing: A Systematic Review of Mechanical Challenges, Process Innovations, and Sustainable Solutions	886
192	Regional Clustering of Chili Prices in Indonesia Using Six Clustering Methods and VARD Modeling	898
193	Effect of Cryogenic Treatment Duration on the Mechanical and Microstructural Properties of Manganese and Cast Steels	910
194	Classification of Beef Freshness Based on Ammonia and CO ₂ Concentrations Using Support Vector Machine	924
195	Effect of Hot Aisle Containment on Cooling Performance in Existing Data Center with Row-Based Topology	935
212	Arrhenius Kinetics Integration in Perishable Food Supply Chain Optimization	943
214	Sustainable Functional Noodles Enriched with Ultrasound-Extracted Agar from Peruvian Red Seaweed (<i>Chondracanthus chamissoi</i>): Mixture-Design Optimization and Physicochemical Evaluation	961

215	RFID-Enabled Inventory Accuracy Improvement in a Peruvian Textile Manufacturer: A Case Study	976
216	Assessing Technological Feasibility of an On-shore Circular-Economy Treatment Plant for Recycling Ship-Generated Oily Waste in Peru	987
217	Enhancing the Sustainability of Village-Owned Enterprises (BUMDes) through Business Competence, Innovation and Entrepreneurship: An Empirical Study	1000
220	Predictive Maintenance for On Load Tap Changer (OLTC) Failure in Oil Transformer	1020
222	Application of 5S and SMED to Reduce Defective Products in a MYPE of the Metal- Mechanic Sector	1027
231	Designing a Smart Monitoring System to Facilitate Remote Monitoring Services Using a Design Thinking Approach	1038
232	Enhancing Teacher Innovation through Digital Literacy, 21st-Century Learning, and Visionary Leadership	1050
233	Transforming Indonesia Drilling Training Center: Implementation of MINDCRAFT to Drive Revenue and Competency Development	1061
236	Design and Development of a Mini Electrically Powered Taro Grating Machine for Rural Food Processing in PNG	1064
237	Harassment in The Work Environment in Anime Zom 100: Bucket List of Dead	1072
238	The Outlook of Sachet Packaging in Green Supply Chain Management: A glance Study based on Customer Preferences of Eco - Friendly Food Seasoning Packaging	1073
239	Social Media Marketing on Featured Product Created by Correctional Prisoner of State Prison Class 1 Depok	1074
240	The Effect of Socialization on the Interest in Registering for Halal Certification in MSME Actors in Surya Kencana Bogor	1076
241	Improving The Business Process of Health Care Services Based on The Six Sigma Method (Case Study: Healthcare Facilities in Bima, West Nusa Tenggara)	1077
246	Examining the Impact of Environmental Knowledge, Attitude, and AI-Powered Personalization on Green Purchasing Behavior: The Mediating Role	1085
247	Identifying and Prioritizing CSFs in Data Science and AI: The Case of tiket.com Using DEMATEL and ANP	1087
248	Implementation Of Machine Learning Based Optical Character Recognition for Mobile Based Drug Packaging Identification	1100
258	Analysis of Influence Optimization Factors of Risk Management Strategies in Infrastructure Projects	1112

259	A Decision Model for Livestock Maritime Transportation: Comparing Specialized Livestock Vessels and Container-Based Systems	1123
261	A Supply Chain Management Model to Achieve Sustainable and Regulatory-Compliant Performance of Concrete Plants Based on Material Availability in Bali	1124
263	Analysis of Plastic Waste Management Methods in the Recycling Industry: A Case Study-Dili Subdistrict, Beduku Comoro Village	1126
264	SWOT Analysis of Smart Building Implementation in the Planning of Government Centre Building in Gianyar Regency	1128
265	Implementation of PUPR Regulation No. 21/2021 on the Assessment Criteria for Green Buildings in Villa Development in Gianyar Regency	1144
266	Mapping Model for Identifying Village Potential to Support the SDGs Program in the Field of Village Infrastructure	1146
