

Table of Content

7th IEOM Bangladesh International Conference on Industrial Engineering and
Operations Management

Dhaka, Bangladesh, December 21-22, 2024

Title	Page
Title	ii
Masthead	iii
Welcome	v
Committee	vi
Table of Content	xxii

ID	Title	Page
2	Performance Analysis of Gelatin/PVA Composite Scaffolds by a Customized 3D Bioprinter	1
6	Sustainability In FMCG: Energy Efficiency & Green Packaging As Transformative Practices	13
7	Strategic Implementation Of Lean Six Sigma: A Holistic Approach Towards Achieving Business Excellence	22
9	Human Factors & Ergonomics In Healthcare: Targeting MSDs Prevention for Safer, Efficient Care	32
10	Integrating Lean-TPM Strategies for Enhanced Production Efficiency: A Case Study on Textile SMEs in Peru	43
11	Implementing Lean Warehousing and WMS to Enhance Warehouse Efficiency: A Case Study in Peruvian Construction SMEs	58
12	Application of Lean Warehousing Strategies in Footwear Trading SMEs: A Case Study on Enhancing Operational Efficiency in Peru	72
13	A Lean Service Approach to Overcoming Operational Inefficiencies in Last-Mile Logistics: A Case Study on Peruvian SMEs	84
14	Integrating Lean Manufacturing and TPM for Process Optimization in Bakery SMEs: A Case Study from Peru	98

15	Integrating Lean Construction, Kaizen, and JIT for Procurement Process Improvement: A Case Study in Construction SMEs in Peru	111
16	Integrating Lean Manufacturing and Systematic Layout Planning to Enhance Efficiency: A Case Study in Chemical Trading SMEs	126
17	Implementation of an IoT Dashboard to Control Boiling and Cooling Systems in Manufacturing Industries	140
18	Replacing PET Plastic With PLA As A Sustainable Alternative To Functional Drink Containers	152
23	Development of a wiper and sweeper robot	165
25	An Investigation of Blockchain Technology and Supply Chain Flexibility as Complements to Supply Chain Integration and Performance: A Dynamic Capability View	167
26	Door Security Enhanced with RFID Module and Temperature Sensor	179
27	Supply Chain Management applying VSM, 5S and Standardized Work in an SME: A Case Study of an Apparel manufacturing Company	187
28	Optimizing Manufacturing Processes and Production through the Strategic Use of additional Cutting Tools in Injection Molding Machine	202
29	Industry 4.0-based AI Imperatives for E-Waste Management in Emerging Economies: A Pathway to Environmental Sustainability	212
33	Social Media's Impact on Stock Market Volatility: A Systematic Review of Machine Learning models for Prediction and Optimization	225
35	Data Preprocessing and Deep Learning Model for Voltage-based Arc Fault Detection	228
36	Optimization of Ready-Mix Concrete Operations: A Comprehensive Approach Through Practical and Simulation-Oriented Data	230
37	Promoting Consumer Engagement in Sustainable Fashion and Circular Textile Through Eco-Gamification in Bangladesh	241
38	E-Commerce Market Maturity in Bangladesh: Future Projections and Strategic Framework for Startups	252
39	Selecting The Best Mobile Phone: A Comprehensive Analysis Of Mobile Phone Selection By Using MCDM Methods Throughout AHP, COPRAS, and TOPSIS On Assessment Of Customer Preferences.	267
40	Aerodynamic Performance Analysis of NACA 4415 Airfoil Incorporating Gurney and Bionic Flap: A Steady-State Numerical Analysis	281
42	Implementation of TQM tools for enhancing quality: A case study in Ready-Made Garment sector of Bangladesh	298

43	Optimizing Management Processes: Integrating Generative AI to Address the Gaps Among Project Management, Engineering Management, and Construction Management Skills.	310
45	An Analysis of Barriers to Supply Chain Resilience Adoption in the Bangladesh Food Industries: A Fuzzy TOPSIS Approach	322
46	Numerical Validation of Temperature Effect on 3D Printed PLA Materials with Finite Element Analysis and Non-Linear Hyperelastic Modeling	334
47	Large Language Model is not the Right Path to Bring Artificial General Intelligence	345
48	Optimization of Process Parameters in CNC End Milling of Mild Steel Using Response Surface Methodology	357
49	Comparative Study of Diesel-Only and Hybrid Energy Systems: A Case from Rural Bangladesh	370
50	Effect of cutting parameters on performance of CNC hot wire styrofoam cutting machine	383
53	Proposal of a Prototype of Foundry System to Reuse Waste of Low Melting Point Alloys by Means of Conductive Heat Transfer	395
55	Integration of Six Sigma with Total Quality Management for reducing waste and improving quality in the Beverage Industry	406
56	Evaluating the Impact of Mobile Healthcare Education on Self-Management of Type 2 Diabetes in Rural Bangladesh: An Observational Intervention Study	427
57	Application of Lean and TPM Tools to Improve OEE: A Case Study in Peruvian Metalworking SMEs	429
58	Evaluation of Strategies for Eradicating Supply Chain Disruption in Steel and Rolling Industries in Bangladesh by MCDM Approaches	445
60	Implementation of Lean Manufacturing Tools for Materials Management in a Warehouse	468
61	Study of Energy and Environmental Benefit from Household Solid Waste in Rajshahi City Corporation	480
62	A Comparative Evaluation of Line Balancing Methods to Enhance Sewing Line Performance	489
63	The Effective AI Mechanisms for Breast Cancer Classification and Prediction	501
64	Study of Doel Laptop Project: Causes of Failure and Lessons for Future Government-Backed Technology Initiatives in Bangladesh	513
65	Project Selection Criteria: A Review on Last 20 Years Literature	515
66	Scalable Collaborative Innovation in Bangladesh's Industrial and Healthcare Sectors: Addressing Access and Skills Challenges for Sustainable Growth	528
67	Business Proposal for an Online-Based Educational Platform in Bangladesh: A Market Analysis and Opportunities	539

69	Digital Transformation of Supply Chain Management by Adopting Industry 4.0 Technology in Bangladesh: An Integrated Novel MCDM Approach	562
70	Recent Advancements and Methods to Solve Resource-Constrained Multi-Project Scheduling Problem: A Review	575
71	Weathering the Forecast: Using Data Mining Techniques to Investigate Temperature’s Effect on Ice Cream Sales	588
72	From Crisis to Sustainability: Analyzing the Impact of Recent Political Turmoil on Bangladesh’s RMG Supply Chain	597
73	Optimizing Pipe Manufacturing Efficiency: A Case Study on Waste Reduction through Lean Techniques	604
74	City 4.0: Smart Parking Systems with Intelligent Sensor Networks and Adaptive Technologies	617
75	Adaptive U-Net with VGG-16 Encoder: Enhancing Land Cover Segmentation for Environmental Sustainability and Urban Insights	626
76	Sustainable Urban Farming: Enhancing Energy Efficiency with Vertical Farming and Renewable Energy Integration	639
77	A Comparison Study of Vehicle’s Electro-Hydraulic (EHPS), Electric (EPS) and Hydraulic (HPS) Power Steering System	649
78	Geographic and Demographic Distribution of Hemoglobinopathies in Bangladesh: A Comparative Study among Urban and Rural Populations by Gender	659
83	Optimization of Inbound Logistics of Automobile Industry Using Flexsim	660
85	Lampon Pro: Development of a Multifunctional Smart Lamp with Adjustable Lighting, Remote Control, and Fire Safety Features	673
86	Finite Element Simulation of Alloyed Steel (20MnCr5) in Extrusion Process Using Deform 3D Software	687
87	Suswastho: An Innovative Approach to Online Doctor Consultation and Medicine Delivery in Bangladesh	701
88	Optimization of a Non-Contact Air Conveyor: An Experimental Study	718
90	Fabrication of Automatic Car Washing System with multiple features using IoT.	733
92	Business Proposal for an E-Accommodation Platform in Bangladesh: A Market Analysis and Opportunities	744
93	Analyzing Ergonomic Factors Influencing Productivity in Bangladeshi Garment Industry Using Fuzzy ANP Method	767
94	Natural gas Production Trends in Bangladesh: A Study of the possibility of a natural gas energy crisis in the future.	780
95	AI in Smart Assistants and Conversational Agents: Transforming Human-Computer Interaction	781

96	Performance Analysis of Supply Chain Resilience Using AI-Driven Predictive and Adaptive Modeling	783
98	Implementing Blockchain Technology in the Supply Chain of RMG Industries in Bangladesh	785
99	MWCNT Based Antenna for Biomedical Application	799
100	The Role of Green Supplier Selection in Promoting Sustainable Development in Bangladesh: An Application of Fuzzy AHP and DEMATEL	811
102	AI-Powered Solutions for Reducing Greenhouse Gas Emissions in Industrial Processes	813
103	Optimization of Coating Thickness Parameters and Prediction of Optimal Range in the Cold Spray Process	815
104	Hybrid Deep Learning Model for Classification of Brain Tumor, Lung and Colon Cancer Using EfficientNetB7 and BiLSTM	827
105	Fraud Detection: A graph theoretical approach using Graph Neural Network	838
106	Forecasting Retail Coffee Demand Using SARIMA: The Role of Weather Variables	839
107	Analysis and Dynamic Modelling of a Solar Water Pumping System	841
108	Neutrosophic Analytic Hierarchy Process for Multi-Criteria Decision Making: Applied to Supply Chain Risk Management	853
109	Optimizing Coastal Defense of Bangladesh: Comparative Analysis of Stability and Cost of Different Armor Units	863
110	Optimizing Industrial Energy Systems with Green Hydrogen: AI-Powered Efficiency and Environmental Resilience	875
111	Supply Chain Resilience Through Efficient Supplier Management: A DEA Perspective	877
112	Entrepreneurial Agility Innovating in a Rapidly Changing Gig Economy Environment	878
113	Driving Sustainability: The Economic and Environmental Impact of Solar-Powered E-Vehicles in Bangladesh	880
114	A Review of Cardiovascular Diseases Using MRI Image Classification Techniques	891
117	Design, Development, and Performance Analysis of an Innovative Mini Portable Cooling Cup	902
118	Kaizen Implementation in Small and Medium Enterprises at PRAN RFL Group in Bangladesh	914
119	Application of Standarized Work and CVRPTW to Increase the OTIF Index in the Outbound Logistics of a Fruit Distribution SME	927
144	IoT-Enabled Digital Twin Ecosystem for Optimizing Maintenance and Minimizing Downtime in Smart Manufacturing	939
146	A Novel Approach for Improving DDoS Attacks with the Application of Machine Learning Algorithms	951

147	Bangladesh's Electricity Growth: Is Bangladesh Truly Advancing in Renewable Energy?	960
148	Polyethylene Terephthalate (PET) Recycling in Bangladesh: Current Status and Future Sustainability Prospects	969
161	Enhancing Bangla Local Speech-to-Text Conversion Using Fine-Tuning Wav2vec 2.0 with OpenSLR and Self-Compiled Datasets Through Transfer Learning	983
162	A Novel Machine Learning Approach for Detecting Fake News in WELFake Dataset	994
163	The Impact of Online and Offline Large Language Models From Code Creation to Healthcare: Revolutionizing Applications	1003
164	A Comparative Analysis Between Public and Private University Students of Bangladesh About Academic Choices, Career Goals, and Satisfaction	1005
165	From Click to Cart: A Conjoint Analysis View of the Road to Customer Satisfaction and Willingness to Pay in Online Shopping	1007
167	Innovative Approach: Pyramid Series Accumulation	1020
168	Consumer Behaviour Analysis Towards Staple Food on Local Market	1021
169	Assessing the Impact of Traffic-Related Challenges on Academic Performance: A Comparative Study of Statistical and Machine Learning Models	1022
170	Emerging Health Crisis: Tracking the Rise of PCOS and Ovarian Cysts in Bangladeshi Women	1024
171	Parental Influence in Shaping Student Performance: A Data-Driven Study in Bangladesh	1025
172	Study on the Effect of Different Types of Sewing Threads on Seam Performance of Woven Apparel	1026
173	Compatible Control of Power Sharing for Microgrid Systems Based on Inverters	1041
174	Recent progress of micromanufacturing technology	1054
175	Educational Aspirations and Brain Drain: A Study of Bangladeshi Undergraduate Students' Perspectives	1071
179	Short Content Addiction and Consumption Behavior in Bangladesh: A Perspective of a Global Phenomenon	1073
180	Statistical Overview of Dengue Outbreaks in Bangladesh: Trends and Comparisons	1074
181	Cost-Effective CNC Router for Precision Manufacturing in Bangladesh	1076
182	Optimizing Supplier Order Sizes to Mitigate the Bullwhip Effect in a Food Supply Chain: A Case Study Based Approach	1078
184	Towards Sustainable Transportation: Hybrid Vehicles as a Sustainable Alternative to Traditional Fuel Only Vehicles	1090

185	Strategic Implementation of Artificial Intelligence and Machine Learning in the Pharmaceutical Sector: A Dual Hesitant Fuzzy Group Decision Making Approach	1092
186	Rise Of Self Learning in Bangladesh: AI tools & Edtech support role in modern Bangladesh	1103
187	Integrating Demand Forecasting and EOQ for Inventory Management in the Pharmaceutical Sector	1104
188	Impact of Artificial Intelligence (AI) on Education:Enhancing Learning Opportunities and Addressing Ethical Challenges	1114
190	A Study on the Role of Mobile Learning Apps in Shaping Academic Outcomes for Bangladeshi University Students	1116
192	A Study on Supply Chain Challenges and Solutions for Smallholders in Bangladesh's Agriculture	1117
193	Industry 4.0-Enabled SMED Implementation for Improving Pipe Extrusion Efficiency: A Case Study	1126
194	The Decline of Reading Habits Among The Youth: A Digital Age Dilemma	1137
195	The Impact of Family Influence on the Educational Choices of Bangladeshi Female Medical Aspirants	1139
196	Advancements in Lung Cancer Detection: Harnessing Machine Learning for Early Diagnosis and Precision Medicine	1140
197	Impact of Traffic Delays on Student Commute Times and Academic Performance in Bangladesh	1152
198	Leveraging Generative Modeling in Supply Chain Management: A Comprehensive Review	1153
199	A Study of Implementing an Effective Relief Distribution System in Harirampur, Manikganj, During a Flood	1171
200	Analyzing Trends and Impacts in Bangladesh's Tourism Sector: A Study of Visitor	1183
201	AI-Powered Mobile Health Apps for Safe Medication Management: A Smart Solution to Self-Medication Risks in Growing Markets	1184
202	Identifying The Optimal Facility Location For Transporting And Distributing Vaccines	1186
203	Efficient Waste Categorization And Collection Station Allocation To Reduce Operational Costs	1197
204	Modeling the Effects of Geometrical Irregularities in Bagasse Fibers on Composite Behavior using ANSYS Workbench	1209
205	Analyzing the Best Arc Welding Parameters Following The Best Edge Joint Using Taguchi And Grey Fuzzy Method	1219
206	An Analytical Study of Influencing Factors in Private University Enrollment in Bangladesh	1231

207	A Statistical Analysis on Unemployment After Graduation in Bangladesh	1232
208	The Journey Abroad: A Statistical Analysis of Factors Influencing Bangladeshi Students'™ Decisions to Pursue International Education	1233
209	Digital Habits of University Students: A Statistical Analysis of Screen Time, App Usage and Device Engagement	1234
210	Bangladesh's Journey to the Future: How Ready is the Nation for Brain Computer Interface	1235
211	The Impact of Online Study Resource Utilization on Student Academic Performance: A Statistical Analysis	1237
212	Impact of Social Media and Reels on Concentration and Behavioral Changes in Youth Generation: Insights from Bangladesh	1238
213	Experimental Study On Effect Of Blade Exit Angle On Centrifugal Pump Efficiency	1240
214	Trends and Determinants of Road Accident Outcomes in Bangladesh: A Statistical Analysis of Deaths, Injuries, and Accidents	1247
215	Redefining Sewage Maintenance: The Automated Gutter Cleaner Approach for Bridging Efficiency, Safety and Sustainability	1249
217	Automatic Product Counting & Sorting By Conveyor Belt	1259
218	Development Of A Cost-Effective Scissor Lift Table For Multi-Industry Applications	1269
219	Navigating AI Adoption: The Role of Organizational Culture Under Disruption Severity	1281
220	Towards Sustainable Tanning: Identifying and Prioritizing Barriers to Achieving LWG Certification in Savar Tannery State	1293
222	Assessing the Practicality of Increased Power Output in Fuel Engines for Auxiliary Energy Production	1303
223	How Family Businesses Can Stay Ahead Through Digitalization	1305
224	Integrating Multi-dimensional Factors Influencing Consumer Behavior in Bangladeshi E-commerce: A Data-Driven Approach	1307
225	Prioritizing Environmental Management Practices in Bangladesh through Multi-Criteria Decision Analysis	1319
226	Analyzing Carbon Dioxide Emissions and Various Energy Sources in Bangladesh Using Statistical and Machine Learning Models to Forecast Future Trends: An Exploration of Performance of Different Forecasting Models	1330
228	Harnessing Big Data and AI for Supply Chain Resilience in the Garments Industry: A Comparative Analysis of Bangladesh and China	1340
229	Feasibility Study of Organic Acid as Electrolyte in Lead Acid Battery for Green Energy	1350

230	Evaluating Safety at Rooppur Power Plant: A Simulation Based Assessment of the Loose Parts Detection System (LPDS)	1364
231	The Impact of Blockchain Enabled Dynamic Alignment and Integration to Enhance Organizational Resilience: The Mediating Role of Green Innovation	1378
232	Leather Chemical Industry of Bangladesh: Current Market Scenario and Future Prospects	1390
233	Improving Die-Casting Part Classification using Transfer Learning with Deep Convolutional Neural Networks	1399
235	An innovative method for identifying driving weariness in EEG data using a modified machine learning algorithm	1411
236	Exploring Unsupervised Machine Learning: A Dive into Analyzing Anthropometric Attributes and Maturity Status among Youth Athletes in Bangladesh	1424
250	Strengthening Bangladesh's Energy Infrastructure: Grid Stability with Rooppur Power Plant	1436
251	Enhancing Woodworking Efficiency with a Multipurpose Wood Processing Machine: From Concept to Application	1439
252	The Prospects of Zero Energy Building as an Alternative to the Conventional Building System in Bangladesh (A Review)	1448
253	Evaluating Road Traffic Accidents and Safety Measures in Bangladesh: A Data-Driven Approach	1459
256	An MCGDM Approach for Addressing Challenges for Industry 4.0 Adaptation in Heavy Duty Flooring Solution Industries of Bangladesh	1460
257	An Overview of Machine Learning Algorithms and Their Applications in Industry	1472
259	Leveraging Recycled LDPE for Eco-friendly 3D Printing Filament Production	1473
260	Implementation of Lean Tools in the FIBC (Flexible Intermediate Bulk Container) Industry to Improve Productivity	1475
261	Application of Six sigma DMAIC in the Healthcare Industry of Bangladesh	1477
263	Designing Blood Supply Chain: case from multiple hospitals in Dhaka city	1484
264	Readiness Level Assessment for Blockchain Practices in the Healthcare Sector Using Fuzzy Logic Approach: A Case Study in Bangladesh	1486
265	A Study on The Mechanical Properties of Epoxy/Coconut Fiber Composites	1497
266	Identification and Prioritization of Risk factors in Healthcare Supply Chain Using an Integrated Fuzzy-Delphi and Fuzzy-TOPSIS Method	1499

268	Geothermal Energy Development in Bangladesh: A Sustainable Solution to Mitigate Climate Change Impacts	1511
269	Demand forecasting of Steel industriesâ€™ finished product using ARIMA Model: Bangladesh Perspective	1524
280	Integrating Renewable Energy and Customer Insights: A Systematic Approach to Solar Power Bank Design	1532
284	The Benefits of Adopting Fourth Industrial Revolution (4IR) Technologies in Higher Education Institutions (HEIs)- a Case of South African Institutions	1544
287	An In-Depth Comparative Analysis of Dempster-Shafer and Certainty Factor Approaches for Precision Cassava Disease Diagnosis	1554
