

Welcome to the 9th European International Conference on Industrial Engineering and Operations Management

Barcelona, Spain, July 20-22, 2026

To All Conference Attendees:

EUSS School of Engineering and the IEOM Society International are pleased to welcome you to the 9th European International Conference on Industrial Engineering and Operations Management, Barcelona, Spain, July 20-22, 2026. It is hosted by the EUSS School of Engineering, which is affiliated with Universitat Autònoma de Barcelona (UAB). This year's conference highlights key and emerging areas, including artificial intelligence, digital manufacturing, supply chain management, Industry 4.0, the Internet of Things (IoT), lean systems, Six Sigma, simulation, data analytics, automation, and interdisciplinary research. The event serves as a global platform for academics, researchers, and industry practitioners to exchange ideas, present innovations, and discuss advancements in Industrial Engineering and Operations Management.

The conference aims to foster collaboration, networking, and joint initiatives while advancing both the theory and practice of IEOM. We are delighted to share that the conference received about 333 submissions from 60 countries, with 245 papers and abstracts accepted for presentation.

This year's program features a distinguished lineup of keynote speakers representing academia, industry, and global leadership. Their expertise and insights will provide valuable perspectives on contemporary challenges and future directions in industrial engineering, manufacturing, data analytics, and supply chain digitalization.
